	Urgent	**Not Urgent**
Important	**Do - (Your MVP)** ● Display campus study spaces and parking lots ● Allow students to submit busyness ratings for spaces ● Allow students to see the busyness ratings for all locations	**Schedule - (For V2.0+)** ● Use historical data to identify peak hours after some time ● Use multiple student reports to estimate crowds ● Suggest nearby locations depending on busyness levels
Not Important	**Delegate - (Use a library)** ● Reading student input with a Java Scanner ● Format date and time with Java LocalDateTime ● Organize locations and ratings with ArrayLists and HashMaps	**Delete - (Cut it)** ● AI predictions of busyness levels ● Profiles for students ● Public student comments about things
